

CHECKLIST FOR DOCTORAL STUDENTS University Library

At BTU Cottbus–Senftenberg the [doctoral regulations of all faculties](#) allow the submission of an electronic version of the doctoral thesis to fulfil the publication obligation.

1. To publish your thesis you must first submit a copy of the permission to print (»Druckfreigabe«) confirmed by the chair of the examination committee to the Theses Department.
2. Make sure to clarify all copyright and licence related questions to ensure that your publication is not precluded by third-party rights.
[Copyright regulations](#)
3. Add a new title page after the doctoral examination as specified in your faculty's doctoral regulations. Make sure to use the current faculty designation (see [sample title pages](#)).
4. Personal data other than on the title page should be removed from the document for data protection reasons (e.g. curriculum vitae, signature, private addresses).
5. Transfer the required metadata both in English and German (titles; [abstracts](#) of the length of max. 3,000 characters incl. blanks; and max. 5 keywords each) into the BTU Digital Repository OPUS via the [registration form](#). Also, choose whether you want to publish your thesis granting a [Creative Commons licence](#).
6. After completing the above form, you will receive a [DOI](#) (Digital Object Identifier) for your publication per e-mail. Please add the DOI link in your document at the bottom left corner on the back of the title page.
7. Please make sure your file fulfils all formal and long-time archiving requirements: [Guidelines for PDF/A finalization](#).
8. Convert your document into PDF/A-1b or -2b format. The [BTU PDF/A converter](#) is freely available to all BTU members. During the conversion process, the metadata filled out in this tool will automatically be transferred and correctly placed in the PDF/A file properties.
9. After the examination of the file and metadata by the Theses Department, you will receive an e-mail with a test access link and the request to check your data record carefully. **Please do not print your hard copies before you receive this e-mail.**

Technische Universität
Cottbus - Senftenberg

HOW DO I PUBLISH MY E-THESIS?

IKMZ - Universitätsbibliothek
Hochschulschriftenstelle
Platz der deutschen Einheit 2
03044 Cottbus

10. In accordance with your doctoral regulations, 3 or 5 [printed copies](#) must also be submitted to the University Library. Please use white, ageing-resistant paper. The copies must be durably bound. Copies with ring bindings, spiral bindings or plastic covers with tape bindings will not be accepted.
Please note that the contents of your PDF/A file and print copies must be identical.
11. Please read the [Declaration of consent](#) carefully and fill it out. Submit the form **signed per hand** together with your printed copies to the University Library.

After having received all required documents, the Library will send you a receipt confirmation per e-mail. A copy of this e-mail will also be sent to the deanery of your faculty. The deanery will then issue your certificate.
